In Person

An in person six-hour training will provide participants an opportunity to examine the ethical principles of autonomy, beneficence, nonmaleficence, justice, fidelity, and veracity, while engaging in interactive discussions using real-life case examples to deepen their understanding of the ethical principles. From navigating ethical dilemmas to maintaining professional boundaries in the digital age and embracing cultural humility, the program equips participants with practical tools and strategies to integrate ethical principles into their daily practice. Through reflective exercises and a commitment to professional integrity, participants emerge empowered to navigate the complexities of their rehabilitation counseling practice with compassion and ethical awareness.
